

# SHAPE STENCILS

---

## FOR USE WITH EARLY LEARNER TRAIL SIGN #9 - Similar and Different

We recommend printing out the shapes on card stock. Cut out each shape with an exacto knife, discarding the shape portion and keeping the full page with cut-out shape. Tape the stencil to the surface you are going to paint. Use outdoor spray paint or brush paint to paint the shapes on the ground. Stencils can be removed before paint is dry. Sample shapes below.
