

# HOPSCOTCH

---

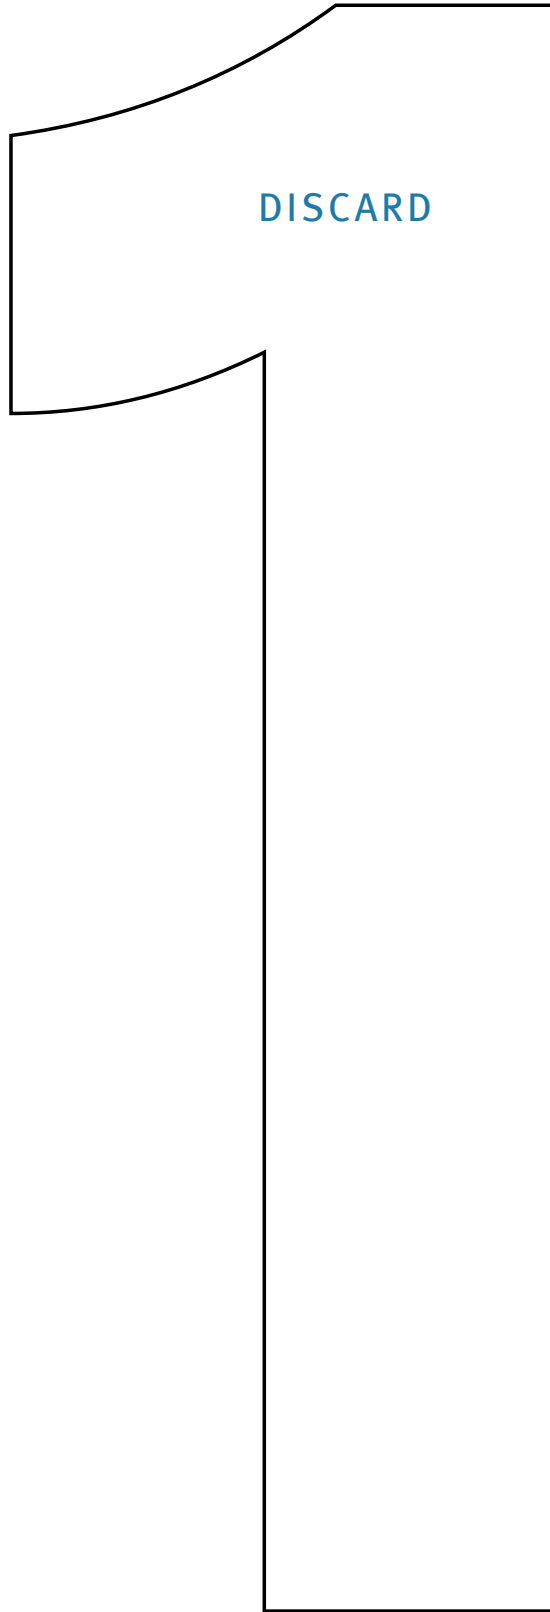

**FOR USE WITH EARLY LEARNER  
TRAIL SIGN #8 -  
Toss, Balance, Hop, Jump**

Paint a hopscotch board on the ground. We recommend making a square template approximately 12" to 16" on each side and painting the squares, following the pattern to the right. Then paint numbers inside each square, using the stencils on the following pages.

We recommend printing out the numbers on card stock. Cut out each number with an exacto knife, discarding the number portion and keeping the full page with cut-out number. Tape the stencil to the surface you are going to paint. Use outdoor spray paint or brush paint to paint the numbers on the ground. Stencils can be removed before paint is dry. Sample alphabet below.
